Hiring Team

OnTheGoSystems

Dear OnTheGoSystems Team,

I'm excited to apply for the Compliance Specialist position at OnTheGoSystems. With a career rooted in IT operations, enterprise infrastructure, and data center logistics across organizations like Amazon Web Services, IBM Cloud, and AdventHealth, I bring a practical understanding of system resilience, audit-readiness, and data stewardship that aligns well with your mission of building secure, multilingual technologies for a global audience.

In my current role as an Operations Analyst at AdventHealth, I coordinate across 24/7 data center teams, support infrastructure standards, and contribute to major projects such as a full-site server refresh-all with a sharp eye on uptime, risk, and compliance. I've also participated in cross-functional incident response and disaster recovery efforts, which deepened my commitment to advancing in cybersecurity and compliance. My work consistently earns recognition, including a formal commendation from a Senior Systems Engineer and a recent Employee of the Month award.

Although my experience has been primarily operations-focused, I've engaged directly with the controls that support ISO 27001 and SOC 2-aligned practices, such as asset management, incident response, change control, and physical security. I'm passionate about expanding into policy development, internal auditing, and frameworks like RoPA and DPIAs, and I'm actively studying toward relevant certifications. My experience managing hardware lifecycle, coordinating diverse

teams, and navigating the balance between technical needs and regulatory expectations makes me a natural fit for a compliance-forward role.

Your async-first, remote-friendly culture and initiatives like the BAMM program reflect the kind of thoughtful, globally-minded company I'm eager to join. I would love the opportunity to contribute to your growing SaaS platform and further strengthen your commitment to secure, inclusive, and compliant technologies.

Thank you for considering my application. I'd welcome the chance to speak further and explore how I can support your compliance strategy at OnTheGoSystems.

Warm regards,

Christopher Bradshaw
